SITUATION OF THE LABOR DISPUTE IN MASSA-

CHUSETTS-A STRUGGLE EXPECTED NEXT

[BY TELEGRAPH TO THE HERALD.]

LYNN, Mass., Jan. 12, 1878 The crisis in the labor troubles in this city has come

at last, and on Monday morning the side that has the

most Greeks will win the battle. The manufacturers have issued their ultimatum and the Crispins are this

evening cagerly discussing the terms proposed. It can be said of the strikers that they show wonderful

pluck, considering their actual financial condition, in

holding out so long against the strong combination of

capitaists that is arrayed against them, but the gen-

eral belief is that they must succumb to the inevita

ble and accept the terms offered by their employers.

The terms are as follows:—
THE MANCFACTERES' CHOCKLAR.

Take notice that we, the undersigned shoe manufacturers of the city of Lynn, hereby agree that on and after Monday, January 14, 1878, we will give work to no person subject to or under the control of any organization claiming the power to interfere with any contract between employer and employe. Every person taking work in this shop on and after this date thereby assents to the conditions of the above agreement, and acknowledges his independence of any interference in any matter between nimself and his employer.

GUATEMALA MANIFESTS HOSTILITY TOWARD THE GOVERNMENT OF COSTA BICA.

PANARA, Jan. 3, 1878.
The steamer Honduras, which arrived here December 30, bring the following intelligence from Central America:—Very decided hostility is manifested towprepared to wage a long war, as they have been idle for a long time, and, of course, are not the possessors of a superabundance of movey They have, however, the entire sympathy of the community, including all the business men, ourside, of course, of the since manufacturers. They will light ou Monday, and light for their lives and that broad and butter, but the odds are against them. To be sure, they have received large aems of money from outside sources that large accessions to their ranks from among the very men who a few weeks ago were trying to take their vacant outches in the shops.

A GENERAL LOCKOUT.

The action of the manufacturers will, of course, result in a general lockout oh Monday morning, and extra policemen are being summoned to aid in the preservation of the peace. At the manufactory of Charles S. Sweetser & Co., Central avaime, to-day, a paper was circulated among the workmen, by which they should promuse to work through the season at the present scale of prices and conform with the resolution. The operatives to a man openly rebelled at the obnexious conditions of the paper, and usunimously relused to sign it. The firm informed them that they should shut down, thus causing a "lock out," but the men would not yield, and they at once sont word to the Crispin Board of Arbitation that they would "hold the fort." The message was greeted with three cheers by the Crispins, who were holding a meeting at that hour.

LOSING MONEY. ard the government of Costa Rica, both by official and semi-official journals of Guatemais, and events seem to indicate the probability of the breaking off of friendly relations between those countries at no distant day. The question at issue seems to be rather a personal than a political one, as the animawersions of the Unsternala press are directed against the President of Costa Rica and the policy he has lately pursoed, without exhibiting any particular prejudice or hostility against the country itself. Whatever the ultimate result of the quarrel may be it is to be regretted, as upon the maintenance of beace and concord among the sister Reputice of Central America depends their material prosperity.

The following desputch has been received at head-

cheers by the Crispins, who were holding a meeting at that hour.

LOSING MONEY.

The manufacturers are losing money by the stoppage of their business, but they will stand together. An out of town buyer went into a manufactory on Market street Friday and left a large order, with the understanding, shat the goods should be forwarded the latter part of this week. That firm has between 600 and 700 cases of goods all ready to go to the lasters, but as the entire shop's crew are now out, and as the prospects of their going to work are growing beautifully less, the chance of filling the order is very precarious. Other manufacturers are in the same predicament, and it is owing to the fact that the Crispins are in full possession of this knowledge that they are so hope all of defeating the manufacturers.

The Crispins say that the responsibility for the troubles which must ensue on Monday does not rest on their shoulders. They say that they have had wind of this action of the manufacturers since Friday, and have lain on their oars, giving up a plan of settlement with the disaffected factories, which they intend to offer as a last resort. Everything in peaceable to-night. The Crispins held an informal meeting and talked over matters, but broke up soon and formed into groups on the streets and in the saloous. There is absolutely no disorder, but what Monday will bring forth is not known. Several manufacturers told the Hakath correspondent this alternoon that they did not apprehend any serious violence, and though the Crispins' organization would die a speedy and natural death. duarters from Fort Davis:-"On the 6th inst. word was brought to Presidio, or the Rio Grande, 100 miles from Fort Davis, that the Indians had taken stock from Russel's ranche, forty miles from Presidio, and shot a man. At midnight another man came in and reported that thirty Mexicans other man came in and reported that thirly Mexicans had gone out from the attacked ranches in pursuit and that the Indians had surrounded them. Two men had escaped and brought in word. One of these men was wounded. There are still thirty lighting men on the ranches in that vieinity."

No word has been received since. This is probably the beginning of the large and well organized raid of which General Ord was warned several weeks ago, the movements of the troops are hampered by unprecedentedly heavy rains.

To-day Representative Dawson received a letter from Mr. done no evil to the republican party. I have done It all the good in my power, even more than it seemed willing to bear; yet I have been the victim of the most bitter and unjust assaults, my actions interepresented and my motives misinterpreted. But time will make all things right, Of course, I have not expected the compliment of the republican vote in the General Assembly, although there is no reason why I should not receive it and it will be regarded as a sentence of advorse judgment upon me. But it will make no difference with me. My adhesion to the republican party is a matter of principle and is not to be destroyed, or in the least affected, by any personal wrongs inflicted upon me. I trust to time and the better judgment of the public for my vindication. It will surely come." A NEW PROCESS TO BE THIED IN PHILADEL-PHIA-GAS FOR FIFTY CENTS PER THOUSAND. PHILADELPHIA, Jan. 12, 1878.

The trustees of the Philadelphia gas works, which are owned and conducted by the city government, have for some time been examining a new process for producing burning gas, whereby, it is claimed, the gas can be manufactured at a cost of from twenty to thirty-five cents per 1,000 feet, a great reducwhich consumers are now obliged pof in this city. By the new process it is proposed to use what is called the slack or reluse bituminous coal dust, which can be delivered here at about \$2 75 per ton, instead of the tump soul now used, for which, according to the official reports for last year, the city was oblived to pay \$6.70 per ton. Another the city was obliged to pay \$6.70 per ton. Another alleged advantage in the new pian is that the dust is injected into the retorts in a continuous current of dust mingled with steam, being converted instantivinto gas, paror and with less waste of time and material than by the present practice of niling the retorts with about 200 pounds of coal which has to be baked several hours to yield only 20 pounds of very impure gas, leaving a residuum of 180 pounds of coke, tar, &c., and injaring the retorts by sudden cooling and heating in the process of changing and withdrawing.

tar, &c., and injuring the retorts by sudden cooling and heating in the process of changing and withdrawing.

The inventor of the new process, a goodleman from Washington, D. C., offers this city the free use of his patent and improvements, provided the public are benefited by seiting the gas to the consumer's at firty conts per thousand feet, which can be done, be chained, and said leave a mandsome profit to the city. The gas trustees have examined the plans of the inventor of the atomic, or steam coal process, as he calls it, and have authorized him to experiment with his new method, provided the city is not obliged to pay the expense, this body not having the right to spend any of their appropriations for such purposes without the spenal approval of the carporation. The inventor, Mr. Crutchett, to day addressed a communication to the Mayor formally repeating his offer to make the city a present of the use of the patent, and guaranteeing the city a saving of from \$10.00 to \$15,000 a day on the kine million leet of gas manufactured here every twenty-loar hours.

Mr. Crutchett intends making the same offer to New York city.

PARIS GREEN.

Terence M. Flyun, who appears on the records of Believue Hospital as Thomas Kiernan, died yesterday morning at that institution from the effects of a dos of Paris green, administered by himself with sutchis intent on the 10th inst. Flynn was a cotton broker during the war and did business in Pine street. and it is believed made considerable money. He latted in business and for a time disappeared. next heard of he was a policeman in the Nineteenth precinct, being appointed on the 13th of October, 1873. Charged with stealing beer from a brewery he was tried and acquitted, but the Board of Commission ers dismissed him from the Department on the 2d of February, 1875. From that time he remained quiet until about two months ago, when he appeared at a boarding house, No. 632 Third avenue, where he engaged board, The people there state that he did not drink so far as they knew, but was constantly talking of resuming business. They had no idea that he contemplated suicide until he was found in his room on the 10th, suffering from the effects of Paris green. He was then removed to the nomittal where he died, While in the hospital Fynnt old a fellow patient that if he recovered he would certainly shoot himself.

#### THE LAST RESTING PLACE.

No. 313 Rivington street is a large tenement house, owned by a Mrs. Robrer and tenanted by a dozen or more families. In the cellar beneath are coal bins for the use of the tenants. At dusk, yesterday, Mary Stark, who lives in the house with a lamily named Weinberger, went to the cellar to get some coul, and by chance mistook an empty bin for the one she was in search of. Reaching down in the dark to pick up the shovel, her hain came in contact with the bare, cold toot of a human being, and, half frightened to ceath, she ran from the place and told the other occupants of the house. A passing policeman was called in, who, with a lighted candle and followed by a curious gathering, decended to the cellar. There, cold and still in death, he found the body of a woman about forty-five years of age. Her face was an intelligent tooking one, but hore signs of exposure, and the enlarged joints of the lingers showed that her hands had not been strangers to hard work. Her body was somitiful attired and saidly cinaciated, as if hunger had played a part in her hast hours. One of her feet was bare and on the other was a woll worn laced shoe. No one of the many who viewed the remains could identify them, and they were later on sent to the Morgue. It is supposed she was some poor wandser, who crawled in to the place for shelter and died.

PLANER GOVERNMENT. Weinberger, went to the cellar to get some coul, and

SOPHIE'S SUIT.

Already in the Herand have the facts been published of the sudden appearance in Newark a few weeks ago of a young giri named Sophie Remp, who left a baby in possersion of a young clerk on Brand street, named William Fisk, declaring him to be its father. Yesterday the case came before the Circuit father. Yesterday the case came before the Circuit Court of Newark upon a motion made by defendant's counsel to quast the writ. The action was brought for breach of promise and seduction and consequential damages. Defendant, through counsel, argued that he was under twenty-one years of age, therefore not legally able to make a contract; that Sophie was unable to recover, and that no amount of damages had been stated in the order to hold to bait.

The Court took the popers and reserved decision.

The prisoners were arraighed in the basex Market Court yesterday and held in \$2,500 ball each. THE SWILL MILK SUIT.

Mr. E. T. Wood, counsel for Gaff, Fleischmann & Co. in a suit against James Gordon Bennett to recive milk exposures in the Herato, appeared before Judge Pratt, in Supreme Court, Special Term, at Brookly's yesterday, and moved to strike out a portion of do fendant's answer as irrelevant and redoudant. Mr. Wood claimed that it was not permissible in reply to a charge of libel to deny the libel, and then, in addition, attempt to prove the publication frue. The Court remarked that counsel was mistaken, as quder the new code both of those pleas might be set up simultaneously.

Mesars, John D. Towasend and Elbridge T. Gerry, for Mr. Remore, objected to plantiff's motion to

for Mr. Bennett, objected to planning to cerry, for Mr. Bennett, objected to planning a motion to sirke out on two grounds—first, that it was made at too late a singe of the case; and, second, that the answer contained nothing irrelevant or redundant, but was made in proper form. His flower took the papers and reserved his decision. ST. MARY'S ORPHAN ASYLUM.

Vice Chancellor Van Fleet has rendered a decision n the case of St. Mary's Orphan Asylum, at So Orange, and a contractor named Jomes P. Olyanev. He declares that the asylum had a right to the pro-tection of the Court, having paid into his hands, for the honelt of creditors, the moneys in dispute. The Court will apport on the money. The action of the asylum managers was onlirely honorable.
